**DETAILED ACTION**

***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-7, drawn to a package for storing and displaying product, classified in class 206.
  - II. Claims 8-10, drawn to a method of making a package, classified in class 53.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions II and I are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the package does not need to be moisture and light impervious.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.
4. During a telephone conversation with applicant's attorney Mr. Clyde E. Bailey on June 17, 2003 a provisional election was made with traverse to prosecute the invention

of I, claims 1-7. Affirmation of this election must be made by applicant in replying to this Office action. Claim 8-10 withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

***Specification***

6. The disclosure is objected to because of the following informalities: on page 2, line 7, Patent No. 5,139, 165 appears to be Patent No. 5,474,183.

Appropriate correction is required.

***Claim Rejections - 35 USC § 102***

7. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

8. Claims 1 and 7 are rejected under 35 U.S.C. 102(b) as being anticipated by Hakun et al. (4,653,642). Hakun '642 discloses a package (10) for storing and displaying product, comprising: a product display member having overlapped, closely spaced front and rear layers (front and rear panels 14, 16, see Figure 2 embodiment); a reusable product container and at least one unit of product (inner shell 20 and mask M);

and means (transparent outer shell member 22) for removably attaching said reusable product container to said product display member, said means for removably attaching comprising extended flange portions trapped between said partially overlapped, closely spaced front and rear layers. See Figure 5 embodiment.

With respect to claim 7, note the opening arranged in a top portion of said product display member in Figure 2 embodiment which will facilitate displaying the member.

***Claim Rejections - 35 USC § 103***

9. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

10. Claims 2-6 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hakun '642. With respect to claims 2-4, which further limits the material of the package, it has been held to be within the general skill of a worker in the art to select a known material on the basis of its suitability for the intended use as a matter of obvious design choice. *In re Leshin*, 125 USPQ 416.

With respect to claims 5 and 6, Hakun '642 discloses fixing the front and rear panels together for example by means of staples (30) to maintain the integrity of the package (see column 4, lines 1-2) and hold the product therein. With respect to means for fixing, whether the fixing means is a staple, adhesive or any other art recognized equivalent is an obvious matter of choice such as expense.

***Conclusion***

11. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Shown are display packages analogous to applicant's instant invention.

12. Telephone inquiries regarding the status of application or other general questions, by persons entitled to the information "should be directed to the group clerical personnel and not to the Examiners. In as much as the official records and applications are located in the clerical section of the examining groups, the clerical personnel can readily provide status information without contacting the examiners", M.P.E.P. 203.08. The Group clerical receptionist number is (703) 308-1148 or the Tech Center 3700 Customer Service Center number is (703) 306-5648. For applicant's convenience, the Group Technological Center FAX number is (703) 872-9302. (Note that the Examiner cannot confirm receipt of faxes) Please identify Examiner Mohandesi of Art Unit 3728 at the top of your cover sheet of any correspondence submitted. Inquiries only concerning the merits of the examination should be directed to Jila Mohandesi whose telephone number is (703) 305-7015. The examiner can normally be reached on Monday-Friday 7:30-4:00 (EST).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mickey Yu can be reached on (703) 308-2672.

If in receiving this Office Action it is apparent to applicant that certain documents are missing, e.g. copies of references cited, form PTO-1449, for PTO-892, etc. requests for copies of such papers should be directed to Donna Monroe at (703) 308-2209.
